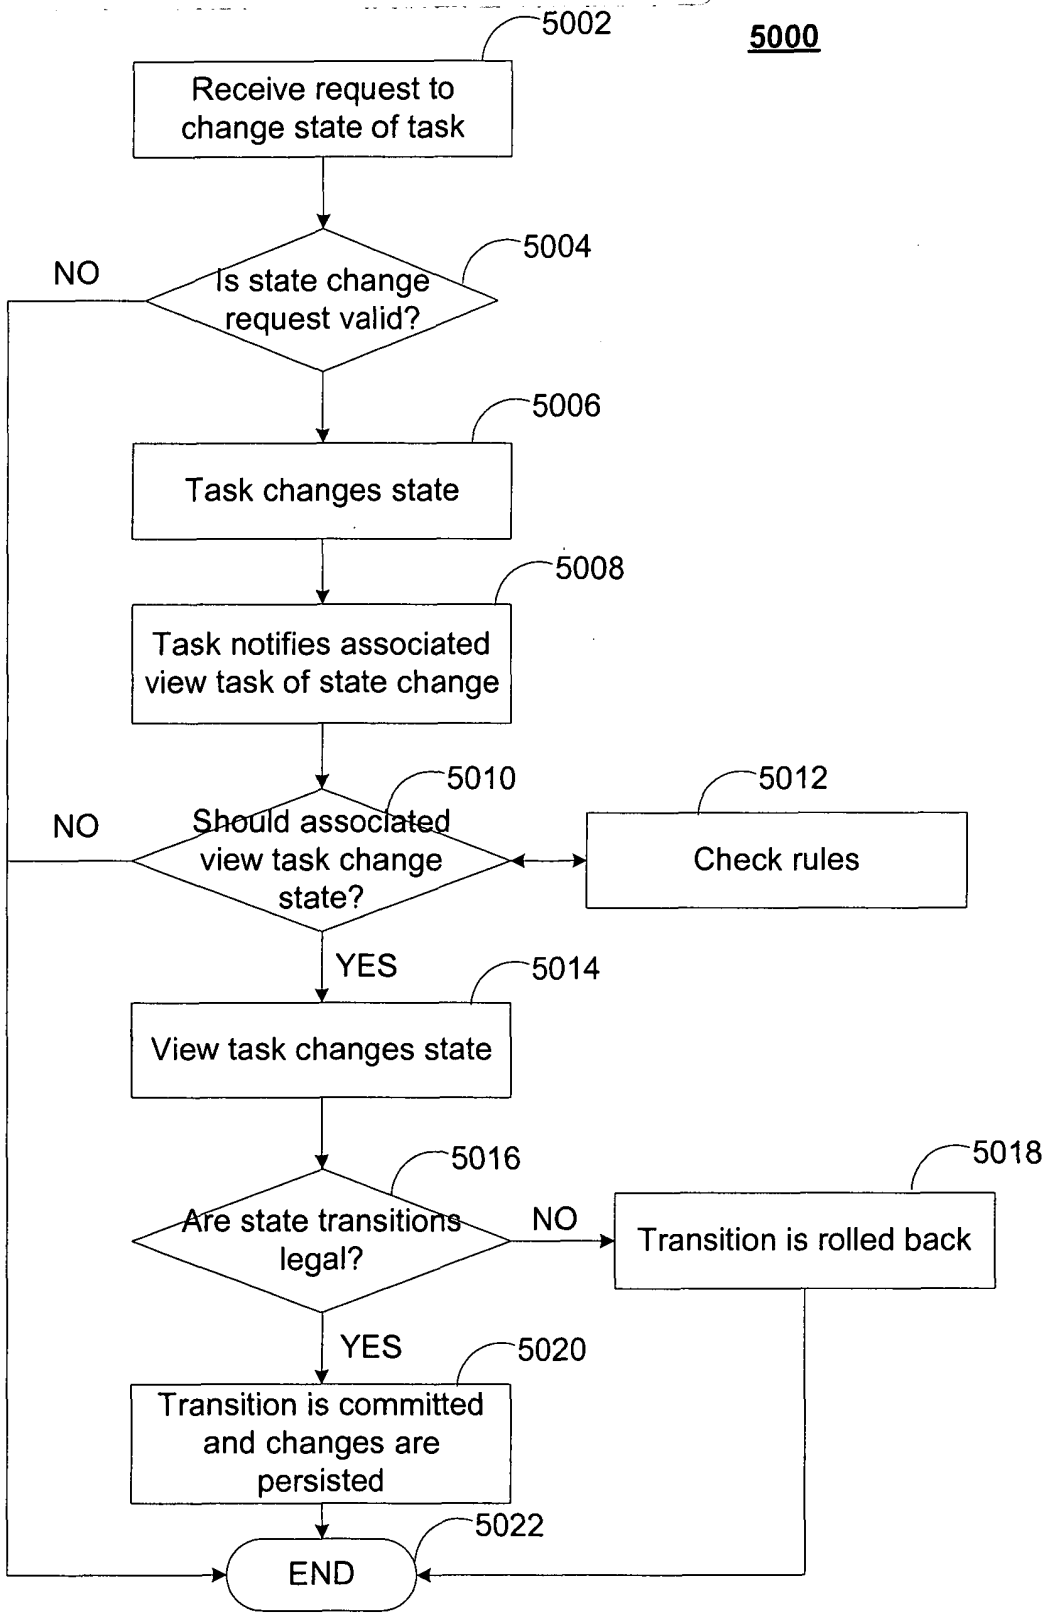
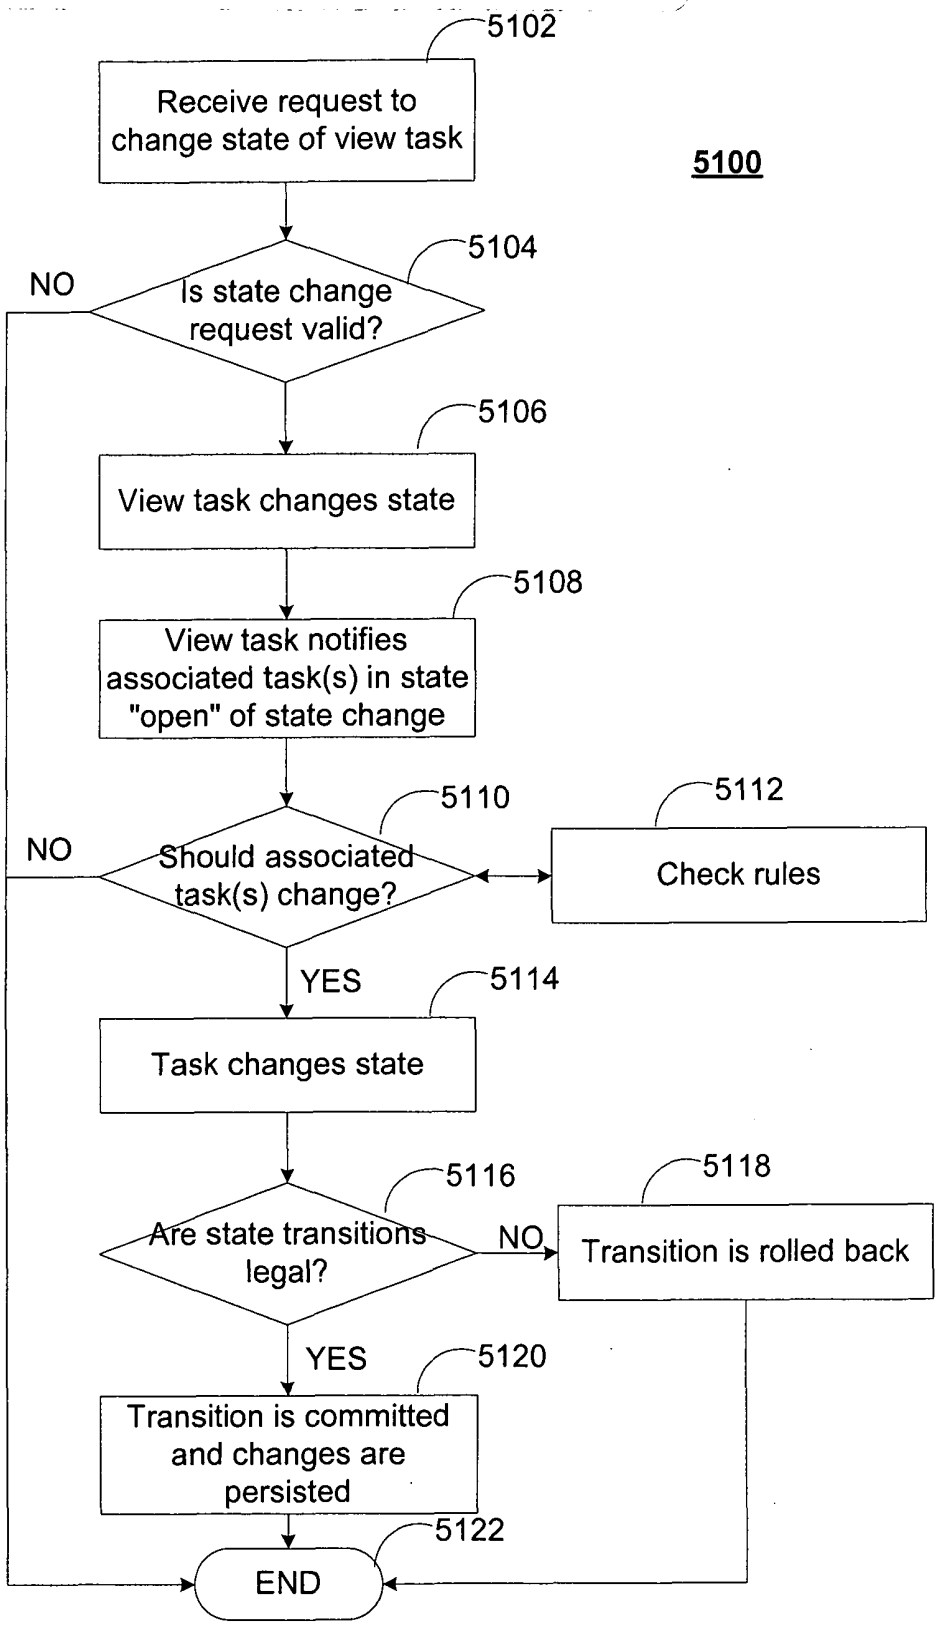
FIG. 49



5000
5002
Receive request to change state of task
5004
Is state change request valid?
NO
5006
Task changes state
5008
Task notifies associated view task of state change
5010
Should associated view task change state?
NO
5012
Check rules
YES
5014
View task changes state
5016
Are state transitions legal?
NO
5018
Transition is rolled back
YES
5020
Transition is committed and changes are persisted
5022
END

FIG. 50



5102
Receive request to change state of view task
5100
5104
NO
Is state change request valid?
5106
View task changes state
5108
View task notifies associated task(s) in state "open" of state change
5110
5112
NO
Should associated task(s) change?
Check rules
YES
5114
Task changes state
5116
5118
Are state transitions legal?

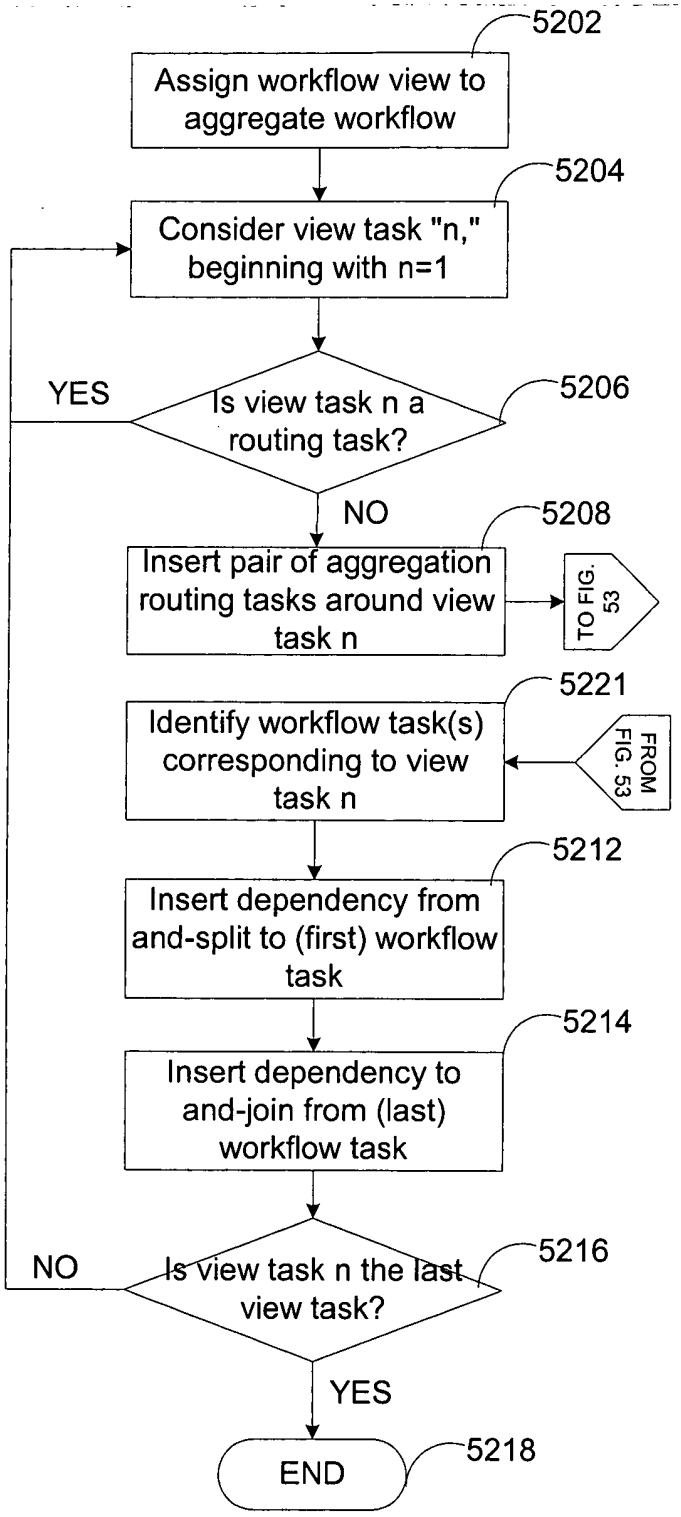
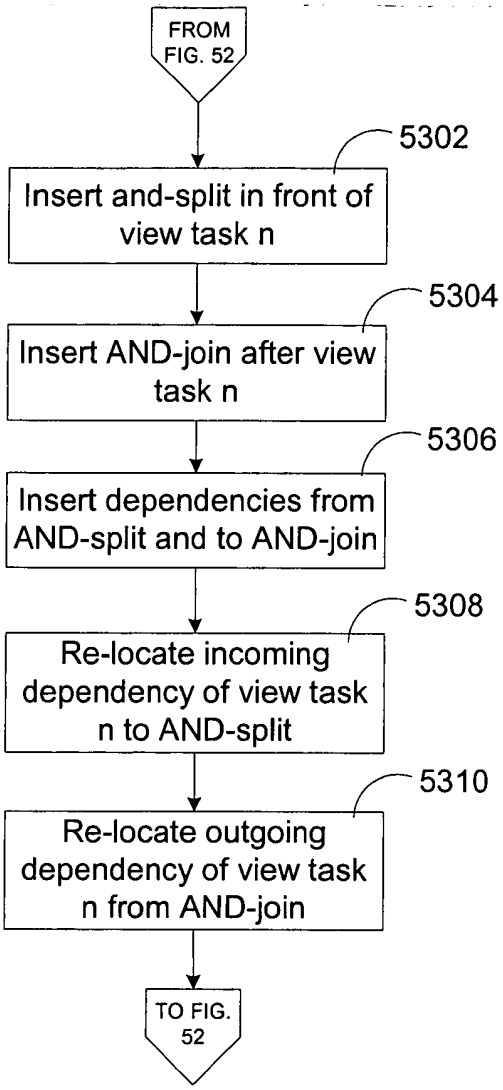
END

FIG. 51



5200
5202
Assign workflow view to aggregate workflow
5204
Consider view task "n," beginning with n=1
YES
Is view task n a routing task?
5206
NO
5208
Insert pair of aggregation routing tasks around view task n
TO FIG. 53
5221
Identify workflow task(s) corresponding to view task n
FROM FIG. 53
5212
Insert dependency from and-split to (first) workflow task
5214
Insert dependency to and-join from (last) workflow task
NO
Is view task n the last view task?
5216
YES
END
5218

FIG. 52



FROM FIG. 52
5300
5302
Insert and-split in front of view task n
5304
Insert AND-join after view task n
5306
Insert dependencies from AND-split and to AND-join
5308
Re-locate incoming dependency of view task n to AND-split
5310
Re-locate outgoing dependency of view task n from AND-join
TO FIG. 52
